

The Most Reliable Portable Printers[®]

microFlash[®] 2t Printer Series

Features

Reliability

- **98.06% Reliability** – O'Neil has the industry's highest reliability rating. Up to 98.06% of O'Neil 4t printers perform flawlessly the first year and 9 out of 10 are still trouble free after 6 years!
- **Engineered for Durability** – No buttons, switches or latches exposed outside the printer case increases the reliability and durability of the printer.

Physical Characteristics

- **Rugged Case** – Polyethylene blow-molded unbreakable case provides rugged protection against multiple 6' drops to concrete; the industry's most rugged printer.
- **Dependable Insertion Card Reader** – Insertion-style card reader for maximum efficiency; conserves battery power.
- **Lightweight** – Lightweight and user wearable for convenient portable transit.
- **Belt Clip Options** – Stainless steel belt clip or swivel belt clip configurations provide alternative mounting solutions.

Communications

- **Serial and IrDA Connectivity** – RS-232 serial connectivity and IrDA communications are included standard at no additional cost.
- **802.11b or Bluetooth Wireless Connectivity** – Optional 802.11b or Bluetooth capabilities built in for wireless communications; Bluetooth protocol incorporated into flash memory of the printer.

Media & Power Source

- **Large Paper Capacity & Long Battery Life** – Equipped with 110' paper roll, it will print up to 1,615 - 6" receipts on a single battery charge; battery retains 80% of original capacity after 300 cycles.
- **Affordable Battery Replacement** – Unlike competitors, battery charging function is built into the printer not the battery, decreasing total cost of ownership.
- **Quick Charge Battery** – Intelligent quick charge allows 2-3 hours for a full battery charge using AC or cigarette lighter adapter.

Fonts & Language

- **Large Memory Capacity** – Wireless model has 8Mb Flash Memory with 4Mb RAM memory built into the printer as a standard feature at no extra cost; supports storage of graphics-logos in flash memory.
- **Compatibility** – Prints 1D and 2D bar codes; supports international character sets, graphics and any Bitstream[®] font or language.

Warranty

- **2 Year Full Warranty** – MF2t Printers include a two-year warranty including printhead and case at no extra cost.
- **Affordable Extended Warranty** – The most attractively priced warranty available. O'Neil gives you three years for about the price competitors charge for a single year.
