

## Model 4850

The combination of reliability and low price makes the 4850 the most robust and cost-effective imprinter available. Its low flex base won't bow or bend like other low cost alternatives. Our optional "no card, no print" feature means a sales clerk can't process a transaction without a credit card so you won't lose a sale

## Chargebacks

Chargebacks occur when a customer or bank disputes a manually entered credit card transaction. Using an Addressograph Bartizan imprinter provides you with a copy of the transaction needed to prevent chargebacks.

## Backup

Addressograph Bartizan imprinters are the ideal solution to today's electronic problems. When electronic terminals fail, communication is lost or authorization is held-up, your business won't suffer if you have an Addressograph Bartizan imprinter.

## Customization

One of the Addressograph Bartizan's unique capabilities is in the area of customization. Most imprinters can be customized with any color or logo. Logos can be applied to the imprinters in four different ways - hot stamping, silk screening, hot stamp transfers, or labels. Customization contributes to your corporate identity and image at a very reasonable cost. Contact us to learn more about customized imprinters.

## Specifications
