SINCE 1975

Stop guessing the status of your mobile devices

Start improving operations

Caught off-guard by device downtime and battery failures? That's what could happen when you don't have visibility into your device data to tell you how your devices are performing so you can decide what next steps you can take to improve your operations.

Without clear, comprehensive data on the mobile devices that run your business, you're in the dark trying to compensate with manual tracking, excessive inventory and repairs. And you're uninformed about security risks, not knowing which of your devices is lost or stolen.

Avoid device disruption and disorder with clear, comprehensive data

Gives you the data-driven, actionable insight when and how you need it. Get a clear view into how your devices are performing and know what next steps can push up productivity and drive down costs.

VisibilityIQ™ Foresight

Go beyond an MDM and view full operational aspects of your devices from a single dashboard view.

VisibilityIQ™ DNA

Peer inside your hardware for answers to key DNA efficiency.

VisibilityIQ™ OneCare®

View status of device repairs, technical issues, contracts, case reports and software and LifeGuard™ security status visibility*.

*VisibilityIQ OneCare available in North America for mobile computers and scanners only

Expand visibility into device operations

And maximize device uptime

Get instant business intelligence about your Zebra devices. See how your devices are performing so you can take action when needed. VisibilityIQ gives you the visibility you need to run your business.

Goes beyond what a MDM alone can offer you. It pulls data from more sources than any other service, then aggregates and translates it into action-ready information. And, you get predictive analytics to accurately forecast future needs.

- Right-size inventory—and budgets
- Tighten security
- Free IT to focus on important tasks

Zebra DNA tools are a powerful set of software, applications and utilities that transforms your Zebra mobile computers, scanners and printers into true enterprise solutions. VisibilityIQ DNA gives you a view into this critical device DNA data to bolster efficiency and uptime.

- Fully utilize key Zebra DNA tools
- Configure fleets in no time
- Bolster efficiency and uptime

Helps eliminate unplanned device downtime and unbudgeted repair expenses. In addition to repair, tech and software support, you can instantly track the status of your device repairs, technical cases and LifeGuard™ security status.

- Sidestep downtime with service and support
- Ensure devices have the latest security updates with LifeGuard reports
- Reduce unnecessary repairs and expense

Discover how to get more out of your devices.
