EcoCart Workstations

The NEW entry-level EcoCart mobile powered workstation is designed to provide true mobility within a facility, while eliminating unnecessary movement, touches and transportation wastes. This can result in improved dock to stock cycle times in receiving and on-time shipments in your shipping areas.

This lightweight, compact unit is ideal for powering a laptop, barcode printer and scanner for 8+ hours at time. At the end of use, simply plug your cart into a standard wall outlet to recharge.

Benefits Include:

- Reduce labor by as much as \$10K per worker
- Increase receipts by as much as 60%
- Reduce improperly labeled products
- Reduce inaccurate inventories
- Process goods directly at the pallet or on the dock
- See your ROI in less than three months

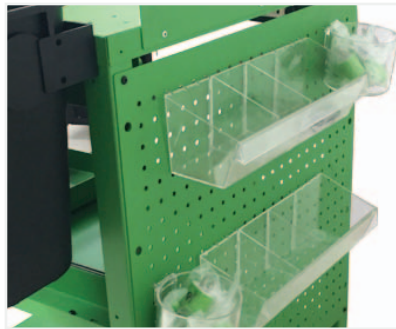

A number of optional accessories are available and can be easily integrated in seconds for a highly versatile workstation.

Shown with optional accessories

Easy-access power strip

Optional pegboard organization system (accessories not included)

Optional slide-out keyboard tray, printer tray and scanner holder
